Data sheet 5TT4102-0

Remote control switch with 2 NO contacts, Contact for 230 V AC, 400V 16A Control 230 V AC

product brand name SENTRON product designation Remote control switch latching relay design Mechanical switch General technical data electrical endurance (operating cycles) 50 000 galvanic isolation between magnet coil and contact Yes switching voltage of the contacts at AC minimum 10 V switching current at AC per contact minimum 100 mA degree of pollution 2 power loss [V-A] of magnet coil with pulse rated value 7 VA Voltage type of voltage of the operating voltage AC continuous voltage fuse version Yes operating range factor control supply voltage rated value at AC at 50 Hz initial value 0.8 initial value 1.1 surge voltage resistance rated value 1.1 surge voltage resistance rated value 4 kV supply voltage supply voltage supply voltage supply voltage supply voltage winimum 250 V Protection class IP Breaking Capacity switching capacity apparent power	
product designation Remote control switch latching relay design Mechanical switch General technical data electrical endurance (operating cycles) 50 000 galvanic isolation between magnet coil and contact Yes switching voltage of the contacts at AC minimum 10 V switching current at AC per contact minimum 100 mA degree of pollution 2 power loss [V-A] of magnet coil with pulse rated value 7 VA Voltage type of voltage of the operating voltage AC continuous voltage fuse version Yes operating range factor control supply voltage rated value at AC at 50 Hz initial value 0.8 full-scale value 1.1 surge voltage resistance rated value 4 kV supply voltage supply voltage supply voltage supply voltage winimum 250 V Protection class protection class IP IP20, with connected conductors Breaking Capacity switching capacity apparent power	
latching relay design General technical data electrical endurance (operating cycles) galvanic isolation between magnet coil and contact switching voltage of the contacts at AC minimum 10 V switching current at AC per contact minimum 100 mA degree of pollution 2 power loss [V-A] of magnet coil with pulse rated value 7 VA Voltage type of voltage of the operating voltage continuous voltage fuse version 9 yes 0 operating range factor control supply voltage rated value at AC at 50 Hz initial value full-scale value 1.1 surge voltage resistance rated value 4 kV supply voltage supply coltage protection class IP Breaking Capacity switching capacity apparent power	
electrical endurance (operating cycles) galvanic isolation between magnet coil and contact yes switching voltage of the contacts at AC minimum 10 V switching current at AC per contact minimum 100 mA degree of pollution 2 power loss [V-A] of magnet coil with pulse rated value 7 VA Voltage type of voltage of the operating voltage AC continuous voltage fuse version operating range factor control supply voltage rated value at AC at 50 Hz initial value full-scale value 1.1 surge voltage resistance rated value 4 kV supply voltage supply voltage supply voltage • minimum 250 V Protection class IP Breaking Capacity switching capacity apparent power	
electrical endurance (operating cycles) galvanic isolation between magnet coil and contact yes switching voltage of the contacts at AC minimum 10 V switching current at AC per contact minimum 100 mA degree of pollution 2 power loss [V·A] of magnet coil with pulse rated value 7 VA Voltage type of voltage of the operating voltage continuous voltage fuse version 0 perating range factor control supply voltage rated value at AC at 50 Hz initial value 0.8 full-scale value 1.1 surge voltage resistance rated value 4 kV supply voltage supply voltage yend voltage protection class protection class IP Protection class IP Provertice in and contact yes IP20, with connected conductors Proventian range factor and contact yes yes switching capacity switching capacity apparent power	
galvanic isolation between magnet coil and contact switching voltage of the contacts at AC minimum 10 V switching current at AC per contact minimum 100 mA degree of pollution 2 power loss [V-A] of magnet coil with pulse rated value 7 VA Voltage type of voltage of the operating voltage type of voltage fuse version 2 operating range factor control supply voltage rated value at AC at 50 Hz initial value 5 full-scale value 1.1 surge voltage resistance rated value 4 kV supply voltage supply voltage supply voltage • minimum 250 V Protection class IP Breaking Capacity switching capacity apparent power	
switching voltage of the contacts at AC minimum switching current at AC per contact minimum degree of pollution power loss [V-A] of magnet coil with pulse rated value type of voltage of the operating voltage type of voltage fuse version operating range factor control supply voltage rated value at AC at 50 Hz initial value initial value initial value surge voltage resistance rated value 4 kV supply voltage supply voltage supply voltage ininimum 250 V Protection class IP IP20, with connected conductors Breaking Capacity switching capacity apparent power	
switching current at AC per contact minimum degree of pollution power loss [V·A] of magnet coil with pulse rated value 7 VA Voltage type of voltage of the operating voltage AC continuous voltage fuse version operating range factor control supply voltage rated value at AC at 50 Hz • initial value • full-scale value surge voltage resistance rated value 4 kV supply voltage supply voltage supply voltage • minimum 250 V Protection class protection class IP IP20, with connected conductors Breaking Capacity switching capacity apparent power	
degree of pollution power loss [V·A] of magnet coil with pulse rated value Voltage type of voltage of the operating voltage continuous voltage fuse version operating range factor control supply voltage rated value at AC at 50 Hz initial value olinicale value 1.1 surge voltage resistance rated value supply voltage supply voltage supply voltage vininimum 250 V Protection class protection class IP IP20, with connected conductors Breaking Capacity switching capacity apparent power	
power loss [V-A] of magnet coil with pulse rated value Voltage type of voltage of the operating voltage	
type of voltage of the operating voltage AC continuous voltage fuse version Yes operating range factor control supply voltage rated value at AC at 50 Hz initial value 0.8 full-scale value 1.1 surge voltage resistance rated value 4 kV supply voltage 400 V Supply voltage supply voltage supply voltage inimum 250 V Protection class IP IP20, with connected conductors Breaking Capacity switching capacity apparent power	
type of voltage of the operating voltage continuous voltage fuse version operating range factor control supply voltage rated value at AC at 50 Hz initial value initial value full-scale value full-scale value surge voltage resistance rated value supply voltage supply voltage supply voltage minimum 250 V Protection class protection class IP IP20, with connected conductors Breaking Capacity switching capacity apparent power	
continuous voltage fuse version operating range factor control supply voltage rated value at AC at 50 Hz initial value initial value ofull-scale value 1.1 surge voltage resistance rated value 4 kV supply voltage supply voltage ominimum 250 V Protection class IP IP20, with connected conductors Breaking Capacity switching capacity apparent power	
operating range factor control supply voltage rated value at AC at 50 Hz o initial value ofull-scale value 1.1 surge voltage resistance rated value supply voltage 4 kV supply voltage supply voltage o minimum 250 V Protection class IP IP20, with connected conductors Breaking Capacity switching capacity apparent power	
AC at 50 Hz initial value full-scale value 1.1 surge voltage resistance rated value 4 kV supply voltage Supply voltage supply voltage initial value 5 kV Supply voltage Voltage Protection class protection class IP IP20, with connected conductors Breaking Capacity switching capacity apparent power	
full-scale value surge voltage resistance rated value supply voltage supply voltage supply voltage supply voltage	
surge voltage resistance rated value supply voltage Supply voltage supply voltage minimum 250 V Protection class protection class IP IP20, with connected conductors Breaking Capacity switching capacity apparent power	
supply voltage supply voltage • minimum 250 V Protection class protection class IP IP20, with connected conductors Breaking Capacity switching capacity apparent power	
Supply voltage supply voltage minimum 250 V Protection class protection class IP IP20, with connected conductors Breaking Capacity switching capacity apparent power	
supply voltage • minimum 250 V Protection class protection class IP IP20, with connected conductors Breaking Capacity switching capacity apparent power	
● minimum 250 V Protection class protection class IP IP20, with connected conductors Breaking Capacity switching capacity apparent power	
Protection class protection class IP IP20, with connected conductors Breaking Capacity switching capacity apparent power	
protection class IP IP20, with connected conductors Breaking Capacity switching capacity apparent power	
Breaking Capacity switching capacity apparent power	
switching capacity apparent power	
• for fluorescent lamp load with DUO circuit 900 VA	
• for fluorescent lamp load with parallel compensation 400 VA	
• for uncompensated fluorescent lamp load 500 VA	
switching capacity current	
• at cos phi 0.6	
• rated value 16 A	
switching capacity active power with incandescent lamp load 2 000 W	
Dissipation	
power loss [W]	
• at 16 A per contact rated value 1.2 W	
• of magnet coil with pulse rated value 4.5 W	
Control current	

type of voltage	
of control voltage_1	AC
control voltage	
_1 initial value	184 V
_1 full-scale value	253 V
• _1 setpoint	230 V
control voltage frequency	
● _1 initial value	50 Hz
• _1 full-scale value	50 Hz
Product details	
product component switch position indicator	Yes
number of NC contacts	0
number of NO contacts	2
number of CO contacts	0
Product function	
product function	
direct operation	Yes
communication function	No
other measurement function	No
pulse duration minimum	50 ms
Number	
number of terminals	6
Connections	
connectable conductor cross-section for flexible conductor	
with core end processing	
• minimum	1 mm²
maximum	6 mm²
connectable conductor cross-section for rigid conductor	
• minimum	1 mm²
maximum	6 mm²
tightening torque with screw-type terminals	
• minimum	0.8 N·m
• maximum	1 N·m
Mechanical Design	
height	90 mm
width	18 mm
width of opening of the contacts	1.2 mm
depth	76 mm
mounting height	90 mm
installation depth	70 mm
number of modular width units	1
fastening method	DIN rail
mounting position	any
required spacing for live parts	6 mm
Net Weight	144 g
Environmental conditions	
ambient temperature during operation	
• minimum	-10 °C
• maximum	40 °C
ambient temperature with relative humidity 95% according	35 °C
to DIN 50015	
Approvals Certificates	
General Product Approval	Test Certificates other
